

New Jersey City Directories at the New Jersey State Library

February 19, 2010

This document provides a list of every New Jersey city directory in the collections of the New Jersey State Library. The list is in order by primary city covered by each directory. Some of the microfilm series of city directories also contain other types of directories such as county, multi-county, and state-wide directories as well as telephone directories. These directories are listed in two sections at the end of this document.

Locating a Directory

New Jersey city directories are found in five different collections:

1. **Fiche.** New Jersey City Directories, Microfiche Series. These are located in binders on top of cabinets in the microform room. They are filed by city name and fiche number.
2. **Fiche LH.** Jerseyana Local History Microfiche Collection. These are located in the microform room in a cabinet. They are filed by LH number. Most of these directories are also available in the HeritageQuest online service.
3. **Film.** New Jersey City Directories, Microfilm Series. These are located in cabinets in the microform room. They are filed by county code, series number, and microfilm reel number.
4. **Book.** Genealogy and Local History Book Collection. These are located in a special section at the beginning the Genealogy book collection.
5. **Rare Book.** These directories are kept in a locked area. In most cases directories in the rare book collection are also available on microfiche or film. To see a directory from the rare book collection, ask for it at the reference desk on level 4.
